Advisor & Client Feedback

Client:

- Recommended we reach out to other facility members to gather photos that may have already been digitized.
- The timeline should have consistent conventions for the year as seeing "1960s" inbetween the wrong years doesn't look good or make sense.

Advisor:

- The user interface has a few UI elements that should get changed to allow for better visibility of elements on the screen so things aren't getting cut off.
- Directions look good and usable but the CSS can get cleaned up to ensure that nothing is cut off the bottom.
